A
Agentic Trajectory Collection
Agent(π_θ)
1 STEP Generation of Structured Diagnostic Strategies.
2 STEP Collect a Full Set of Interaction Trajectories.
B
Trajectory Assessment and Skill Distillation
Agent(ε_{TCM})
1 STEP Two multi-dimensional evaluation strategies are proposed to assess dialogue quality and agent workflow in trajectories, respectively.
2 STEP Extract reusable case-level skills from trajectories based on the evaluation results.
3 STEP Merge case-level skills into a disease-level skill using a merging strategy.
